

America's Seniors Agree: Don't Cut Medicare Advantage

Cuts to the Medicare Advantage (MA) program don't just reduce funding — they jeopardize **vision and dental coverage, cost protections, and access to high-quality doctors and specialists**. For many seniors and their families, Medicare Advantage isn't just a plan, it's a lifeline. And they resoundingly want Congress to protect it.

The overwhelming majority of senior likely voters (**82%**) believe **cuts to Medicare Advantage will have a NEGATIVE impact on seniors' financial wellbeing**.

Strong majorities of seniors across parties (**71%**) want their member of Congress to **OPPOSE** cutting funding for Medicare Advantage. **69% of seniors would be LESS likely to vote for a member who supports cuts**.

Reality Check:

A majority of senior likely voters believe the federal government should **INCREASE** funding (53%) for MA – not cut it (7%) – and most think MA should **NOT** be on the table at all when it comes to cutting federal funding (51%).

Public opinion survey of n=1,000 senior likely voters and consumers nationwide. Conducted online March 12-21, 2025; MOE +/-3%.

America's Seniors Value Their Plans:

- Nearly all senior likely voters (93%) believe it is **IMPORTANT** for seniors to have **a variety of Medicare plan options** to meet their health needs.
- The vast majority of senior likely voters (83%) believe the additional benefits provided by MA plans are **IMPORTANT** to **family members of seniors enrolled in MA plans**.
